

Unpaid Meal Charge Policy

Meal charges (milk) are added to students' tuition management accounts monthly. The system notifies families automatically of unpaid charges. As all students receive free lunch through the state now, this only applies to milk purchased to accompany a lunch brought from home.

Milk charges are added monthly and the FACTS tuition management system automatically notifies account holders. The system automatically charges late fees for unpaid balances. Should an overdue balance reach \$30, that student would not be able to purchase milk at the school until their balance is paid.
